Good Morning,

Please see the information below which has been shared with the NCRCC and CiG previous to this. This message contains some additional investigative details.

You will note that the attached photo is similar/same to what has been observed in Ottawa previously.

Male is arrestable and a Warrant is being prepared currently.

Thank you,

Brent Elbers

Subject: FW: High Risk Person BTB in Ottawa

At 4 am on the 17th of February 2022 CBSA and OPP-PWEU executed a weapons importation warrant in the York Region with the assistance of YRPS ERT. Upon entry to the residence it was discovered the suspect was not present. Firearms and ammunition were observed located improperly stored in the residence. A 3D printer was located. The POI had ordered parts to complete a Glock style handgun (the items seized by CBSA). It is believed the may have manufactured frames using the 3D printer. Machetes were located at entry doors. An anti-government/police notice was observed taped to the front storm door (see attachment). The POI is prohibited firearms. Neighbours indicate he is currently in Ottawa. He is believed to operating a [REDACTED] [REDACTED] A cell phone number for the POI was found on the seized package. It is [REDACTED] This number has not been confirmed, but I believe an emergency track maybe warranted. It is believed this person maybe a risk to the public an law enforcement officers. The POI is arrestable for smuggling and importing a prohibited device, unlawfull possession of a firearm and storage contrary to regulations. The full search of the residence has not yet commenced.

The PQI information is listed below:
